# Unit Conversion: Fahrenheit → Celsius

## Instruction:

- Convert all temperatures expressed in °F to °C with one decimal place.
- Update the chart data and the value-axis title to “Temperature (°C)”.
- Leave values already in °C unchanged.
- Keep fonts, layout, colors, and positions the same; do not add or remove shapes.

## Reported Temperatures

Austin: 86°F
Boston: 68°F
Oslo: 50°F
Paris: 24°C
